**WARNING:**

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. I hereby declare that:  
Each inventor's residence, mailing address and citizenship are stated below next to their name.  
I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,170,814 granted January 9, 2001 and for which a reissue patent is sought on the invention entitled CITY WATER FLUSHING AND SLUDGE PREVENTION CONTROL APPARATUS

the specification of which

☐ is attached hereto.

☒ was filed on September 28, 2001 as reissue application number 09/867,306  
and was amended on July 26, 2006  
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.  
I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☐ I hereby claim foreign priority benefits under 35 U.S.C. 119(e)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

The patentee claimed less than he had the right to claim in the patent by including the limitation of a control mechanism in claim 1. The patentee broadened claim 1 (via amendment in the reissue) to remove the limitation of the control mechanism as a part of the city water flushing and sludge prevention apparatus.
